

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

All claims currently being amended are shown with deleted text struckthrough or double bracketed and new text underlined. Additionally, the status of each claim is indicated in parenthetical expression following the claim number.

Claims 2, 3, 6, 12-16 and 21-30 remain in this application.

Claims 2, 3, 6 and 12-15 are being amended.

Claims 1, 4, 5 and 7-11 are being cancelled.

Claims 17-20 are being withdrawn.

Claims 21-30 are being added.

What is Claimed is:

1. (Cancelled).
2. (Currently Amended) The apparatus of claim ~~[[1]]~~ 12, wherein the vehicle housing is a trailer.
3. (Currently Amended) The apparatus of claim ~~[[1]]~~ 12, wherein the vehicle housing is attached to a motorized vehicle.
- 4-5. (Cancelled).
6. (Currently Amended) The apparatus of claim ~~[[1]]~~ 12, wherein the vehicle housing has an inclined entry ramp.
- 7-11. (Cancelled).

12. (Currently Amended) ~~The apparatus of claim 11, further comprising~~ A self-contained mobile vehicle washing apparatus, comprising:

a vehicle housing having a floor, a roof and one or more walls;

a drain located within the floor of the vehicle housing;

a tank fluidly connected to the drain;

a water supply;

a pressure washer fluidly connected to the water supply; and

a filter fluidly connected to the tank to filter used water from the tank, thereby creating filtered water, and to supply the filtered water to the water supply.

13. (Currently Amended) The apparatus of claim [[10]] 12, wherein at least one of the one or more walls has a closed position and an expanded position.

14. (Currently Amended) The apparatus of claim [[10]] 12, wherein the roof has a closed position and an expanded position.

15. (Currently Amended) The apparatus of claim [[10]] 12, further comprising an equipment housing.

16. (Original) The apparatus of claim 15, further comprising equipment housed in the equipment housing, the equipment selected from the group of: an electric generator, an HVAC unit, a washing machine, a clothes dryer, a water heater, an air compressor, a soap storage tank, a water pump, a vacuum system, an oil storage tank, and a bubble machine.

17. (Withdrawn) A method for washing a vehicle comprising the steps of:

locating a mobile vehicle washing apparatus at a first location;

accepting a vehicle into the mobile vehicle washing apparatus; and

washing the vehicle.
18. (Withdrawn) The method of claim 17, further comprising the step of expanding one or more walls of the mobile vehicle washing apparatus.
19. (Withdrawn) The method of claim 17, further comprising the step of rotating the vehicle within the mobile vehicle washing apparatus.
20. (Withdrawn) The method of claim 17, further comprising the step of moving the mobile vehicle washing apparatus to a second location.
21. (New) The apparatus of claim 12, wherein the vehicle housing is thermally insulated.
22. (New) The apparatus of claim 12, wherein the tank is baffled.
23. (New) The apparatus of claim 12, wherein the tank is thermally insulated.
24. (New) The apparatus of claim 12, wherein the tank is lined to prevent corrosion.
25. (New) The apparatus of claim 12, further comprising a rotatable turntable located within the floor of the vehicle housing and on top of the drain.
26. (New) The apparatus of claim 12, further comprising at least one solar panel located on the vehicle housing for generating electricity to be used by the apparatus.
27. (New) The apparatus of claim 12, wherein one of the one or more walls is hinged to the roof whereby the one of the one or more walls is capable of folding open.

28. (New) The apparatus of claim 12, wherein one of the one or more walls is hinged to another wall whereby the one of the one or more walls is capable of folding open.

29. (New) A self-contained mobile vehicle washing apparatus, comprising:

a vehicle housing, the vehicle housing having a floor, a roof and one or more walls;

a drain located within the floor of the vehicle housing;

a tank fluidly connected to the drain; and

a rotatable turntable located within the floor of the vehicle housing and on top of the drain.

30. (New) A self-contained mobile vehicle washing apparatus, comprising:

a vehicle housing, the vehicle housing having a floor, a roof and one or more walls;

a drain located within the floor of the vehicle housing;

a tank fluidly connected to the drain; and

at least one solar panel located on the vehicle housing for generating electricity to be used by the apparatus.
